Selection Process Overview & Exam Details

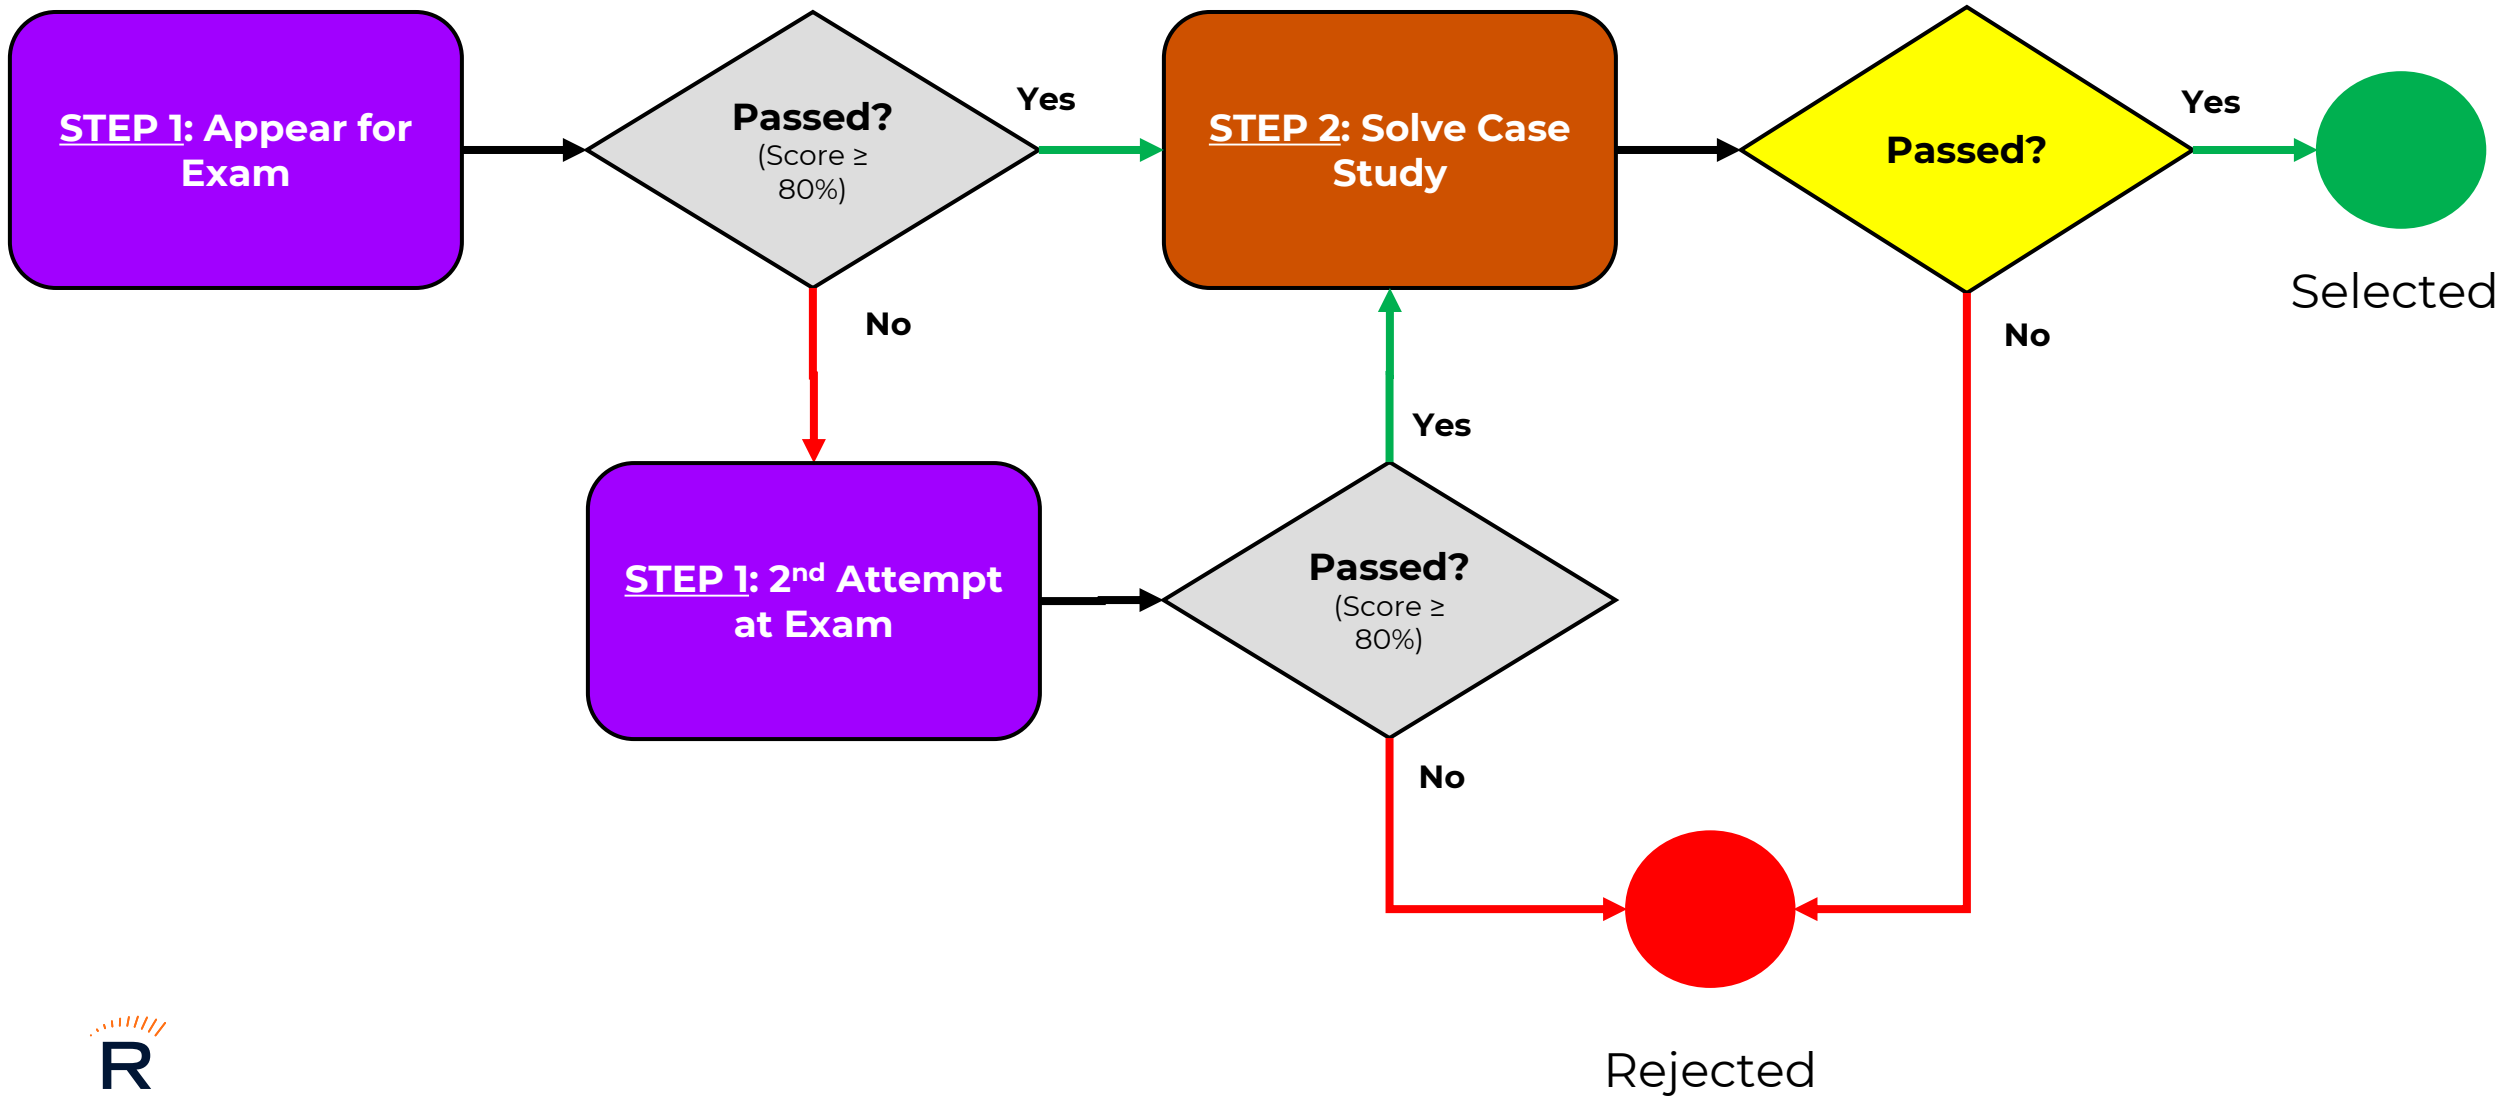

KPMG FinOps training

Agenda

- Step by step process
- Exam details
- Proctoring details
- Precautions

Selection Process

Step 1: Exam – Composition

- Total 40 questions.
- MCQ type questions.
- 28 concept-based questions
- 12 scenario-based questions

Step 1: Exam – No duplication

- Concept-based and scenario-based questions will be pulled from larger question pools.
- Every test taker will get random 40 questions from the question pool.
- No two test takers will get the same exam.
- Answer options are also shuffled.

Step 1: Exam – execution

- Duration: 1 hour
- Expected passing score: 80%
- Assessment will be conducted using RevPro with full proctoring enabled.
- Results will be reviewed by KPMG on the same day.

Only those who pass the 40-question exam with score 80% or above will have the chance to appear for case study-based Step 2 evaluation.

Step 1: Exam – Proctoring Details

- Full-screen enforcement.
- Multi-screen detection + auto-termination enabled.
- Window violation detection enabled.
- Window violation – exam termination enabled.
 - Auto-terminate after 3 times switching to other windows.
- Image proctoring enabled
 - Compares reference image with current webcam image.
- Image proctoring violation – exam termination enabled.
 - Auto-terminate after 5 violations.
- Session surveillance enabled
 - Continuous image capture every 20 seconds.
- Right click disabled, copy-paste disabled.

Step 1: Exam – Exam Guidelines & Proctoring Precautions

- Download and install Chrome. Use Chrome for the exam.
- At start of exam, capture image while directly looking at the screen and into the camera.
- Ensure you are using only one screen while taking the exam.
- Do not switch to another window.
- Do not move away from your desk.
- Make sure there is no one in the room with you.
- Do not try to copy-paste anything.
